ILS 21HL Sho-Q Presentation System.

Improve your presentation delivery with ease and confidence. This sleek lectern comes with a 22" wide screen touch monitor and integrated state-of-the-art PC power. It is placed on a firm floor-standing foot with electrical height adjustment.

Comfortable to touch and hold, decoupled XLR mic socket and lighting over DINA4 / A-size area next to the monitor. On request the system comes on a solid fitting table stand. [order code ILS21HT] or ready to integrate on your own bespoke lectern or podium environment.

For users that require to use their own notebook, the new ILS21HL includes all the sockets to simply switch to the notebook and back to the ILS21 internal PC for displaying any source on the projected presentation.

Combined with sho-Q Presenter support tools, the system adds confidence to the user - and productivity to meetings - with seamless execution of multiple presentations.

You can instantly select any slide from any presentation. Windows 7 and Vista users may use sho-Q7, which adds pen and touch interactivity, you can preview live slides and write/annotate on them.
