

# Stand out from the crowd

## ILS22GS all-in-one lectern

The ILS22GS with sho-Q Presenter is so intuitive to use, that no operator training is required. Just bring your presentation on a USB stick, plug it in, and you are ready to go. Alternatively you can preload all presentations on the lectern, and at a later time start your presentation with a single touch. The ILS22GS lectern / e-podium represents a complete and up-to-date technology package for presentation solutions. It is a stylish all-in-one presentation console in versatile 1.5" – 3" flat box, with 22" monitor plus surrounding room and source controls, keyboard and annotation pad, engraved in a 31" touch glass cover. There is no bezel around the glass, which allows for very easy cleaning. The durable 5mm thick aluminum packaging comes with XLR3 and XLR5 microphone sockets.

The latest generation update brings true multi-touch across monitor and keyboard functions with very high responsiveness and user comfort. Our drivers make the most of the Zytronic touch technology (also under WIN8.1) Processor and motherboard are upgraded to ASUS Q87T with 4th generation Intel i5 4570 processor and fast 256GB SSD for incredible speed and power. Integrated control system and LED programmable backlit keys, 11 relays are driven by a separate processor, 3 comm ports, dual LAN system allow full room control capabilities, directly from a touch of a button on the glass. All room control, system and presentation control is easily set up with our routines. The system is fully controllable over IP from another PC in the network. Height adjustment is under PC control.

## Specifications

- 65x45 cm glass surface with PCT integrated layer across monitor and 5 functional areas
- 10-point true multi-touch on monitor and keyboard, 1680x1050 22" monitor area
- electrical lift based pillar in thick aluminum with cable guides and controllable from PC or over IP
- heavy duty base on feet, wheels, casters with lock; horizontal side tables, paper stop
- single board PC ASUS Q87T with 4th gen Intel i5 4570S CPU, 8 GB RAM, 256GB SSD
